BETTER BUILT TREES

We do not offer to our customers the lighter grades of nursery stock as offered by some mail-order concerns.

We handle only heavy, properly headed, well balanced and well rooted stock such as we would plant ourselves—the kind that is sturdy, will grow readily and requires the minimum of shaping and training.

We do not solicit parcel post orders and it is not necessary that we ship the light grades. We do not believe in that kind of stock. We feel that this policy pleases our customers and has been a basis for our steadily increased patronage.

We like to have customers visit our nurseries to see the pride we take in raising trees and plants. No expense or time is spared to produce the best and we invite comparison.

Photograph of mail-order 3-4 feet apple tree and Marshalls specimen grade (5-6 feet). The small tree weighs 6 ounces and the Marshalls specimen tree 40 ounces. Notice that Marshalls tree is six and two-thirds times the size of the small tree. The value is proportionate. It takes more than height to indicate the value. The home planter wants a strong tree with head formed.

LOST TIME IS EXPENSIVE

A few cents extra for a tree at planting time to assure a planter of true-to-name stock properly trained and full of vigor, is a small investment compared to time, labor and expense to bring it to fruiting or ornamental effect.

BOOK ORDERS EARLY

No nurseryman can carry a complete stock of everything all through the entire season. It is easier to sell a customer four months ahead of delivery date than to sell just before shipment. Early orders receive complete protection on varieties and are always filled with best grades. Book your orders early and avoid loss and disappointment.

TERMS OF PAYMENT—CASH ON DELIVERY.

Transportation charges are paid if shipped in a regular delivery. Single shipments over \$10.00 in Nebraska and Iowa. On orders of \$20.00 or more in other states.

This price list cancels previous quotations.

ENTOMOLOGIST CERTIFICATE

We have the state inspector's certificate showing our stocks to be free from San Jose scale and other plant diseases or dangerous insects and attach facsimile copy to each shipment.

GUARANTEE OF GENUINENESS

If any nursery stock, etc., proves untrue to description under which it is sold, we hold ourselves in readiness on proper proof, to replace all such nursery stock, etc., that may prove otherwise, or refund the amount paid, but we shall in no case be liable for any sum greater than the amount originally received for said nursery stock.

NOTES FOR SALESMEN

1. Confine sales strictly to sizes and varieties in this list.
2. Be sure to give postoffice, R. F. D., Dates, Distance from delivery point and customer's name. Be careful to write sizes in order as they are listed in this Price List, and do not under any circumstances write even size, as 5 feet, 6 feet, 18 inches. All improperly written orders made by salesmen will be returned for correction.
3. Confine your sales to central delivery points. Avoid making deliveries at every little town.
4. Draw a line through any stock when we are sold out to help prevent any further sale.
5. Report any complaint you may have that you can not adjust satisfactorily with customer.

PACKING

Every customer's order is individually packed. All trees and plants are enclosed in heavy paper and burlap, with damp moss about the roots to prevent stock from drying out.

FRUIT TREES

Grades

The Specimen Grade is the largest and best balanced three year old tree. Perfect head and root system.

The Standard Grade is 4½ to 7 feet in height depending upon the variety and season. A first class tree with heavy body, good head and plenty roots.

The X Grade is a size smaller than the Standard Grade but well-limbed.

IT PAYS TO PLANT FRUIT STOCK

We believe in fruit orchards in this country to the extent that we have a young 100-acre apple orchard now bearing thousands of bushels annually. Visit us in the fall and take home some apples.

EVERGREENS FOR WINDBREAK—(Div. b)

We have discontinued the sale of small bare rooted evergreens for shipment.

ORNAMENTAL SHRUBS—(Div. a)

FOR INDIVIDUAL AND GROUP PLANTING

We do not offer small- radio sizes. Marshalls shrubs are all strong well-limbed plants, grown two and three years in wide and open nursery rows after the one year they were in the propagation bed.

Standard Grade is a large shrub from the 2-year-old block.

Specimen Grade is correspondingly larger out of the 3-year-old block, ordinarily considered our best grade.

LANDSCAPE GRADE is a special pack, selected and reserved for those that want the best plants obtainable for quick effect for a landscape planting. The landscape grade runs in price from \$1.00 to \$2.00 each, with some extra heavy landscape grade \$1.50 and up.

To be sold only on special inquiries or by landscape men acquainted and informed as to available stock.

RED RADIANCE—cerise red		

MISCELLANEOUS H. T. ROSES—(Div. c)

Permission must be obtained to sell varieties not listed. Many varieties advertised in magazines are not suitable for our territory.

When increasing the size of a rose garden we recommend to add four to six of one kind of any of the above varieties rather than planting an untold number of varieties. Better results are obtained by the planting of the better adapted sorts.

We handle only the very best grades of 2 yr. stock
